MUHAMMAD AHMER ROSHAN MIRZA

QA Engineer | QA Analyst | Software Tester

Islamabad, Pakistan | 0339-8099685 | ahmermirza2003@gmail.com | linkedin.com/in/muhammad-ahmer-roshan-mirza | github.com/Ahmer03

PROFESSIONAL SUMMARY

QA Engineer with 1+ years of hands-on experience in manual testing of Android and iOS mobile applications and wearable devices. Skilled in functional, regression, sanity, smoke, integration, exploratory, and end-to-end testing across staging and production environments. Experienced in API and backend testing using Swagger and Postman, GraphQL query validation, and Firebase Analytics verification via DebugView. Proficient in creating and executing test cases, defect reporting and tracking in Jira, and validating UI against Figma designs. Strong understanding of SDLC, STLC, defect life cycle, and Agile/Scrum workflows.

PROFESSIONAL EXPERIENCE

QA Tester | *AICYRO Solutions, Islamabad* Jul 2025 – Present

- Performed manual QA testing for Android and iOS mobile applications across staging and production environments, validating new features, bug fixes, and release builds.
- Executed functional, regression, sanity, smoke, integration, and exploratory testing to ensure application stability and adherence to acceptance criteria.
- Tested mobile features including Live Tracking, SOS, Find My Device, Maps, Safe Zones, Routines, Alarms, Notifications, and device/watch connectivity.
- Conducted end-to-end testing across mobile phones and wearable devices, covering pairing/unpairing scenarios, connectivity conditions, and watch firmware versions.
- Tested REST APIs and backend functionality using Swagger and Postman, validating request parameters, response data, status codes, authentication, and edge cases.
- Created and executed test scenarios based on Jira tickets and acceptance criteria, identifying functional gaps and unexpected behavior.
- Reported and tracked defects in Jira with clear reproduction steps, expected vs. actual results, and supporting screenshots/recordings.
- Verified Firebase Analytics events (Live Tracking, SOS) via Firebase DebugView; tested GraphQL query changes and multi-child data handling.
- Performed negative and edge-case testing, including offline devices, rejected actions, and multiple active SOS scenarios.
- Collaborated with developers and team members via Jira and Slack, communicating test results, blockers, and release readiness.

PROJECTS

Baseerat – Assistive Mobile Application | *Flutter | Django REST API | JWT | Computer Vision*

- Developed a mobile application to assist visually impaired users, with object detection, obstacle detection, distance measurement, scene narration, face recognition, voice commands, and SOS functionality.
- Integrated Flutter frontend with a Django REST API (JWT auth) and tested application workflows, API responses, and mobile functionality.

TECHNICAL SKILLS

Testing: Manual, Functional, Regression, Smoke, Exploratory, End-to-End, UI, Mobile, API Testing
QA Processes: Test Case Design, Test Execution, Bug Reporting, Defect Tracking, Retesting, SDLC, STLC, Defect Life Cycle, Agile/Scrum
Mobile QA: Android, iOS, Wearables/Smartwatches, Device Connectivity, GPS/Location, Maps, Real-Time Tracking
API/Backend: Swagger, Postman, REST APIs, GraphQL, API Validation, Response/Status-Code Validation
Tools: Jira, Swagger, Postman, Firebase DebugView, Android Studio, ADB, Git/GitLab, Figma, Slack
Platforms: Android, iOS, Windows
Programming & Data: SQL, Python, Flutter/Dart

EDUCATION

BS Computer Science | National University of Modern Languages (NUML), Islamabad Jul 2026
CGPA: 3.32

CERTIFICATIONS

- Microsoft Dynamics 365 CRM — Microsoft
